PULSE

PULSETRAIN

At PULSETRAIN, we're redefining electric mobility.

PULSETRAIN technology extends EV battery life by up to 80%, enhancing efficiency, safety and sustainability.

Using AI and real-time data, we enable battery reuse through seamless and simple software updates, paving the way for a circular future. Safety is our priority - our system minimises the risk of thermal events while accelerating charging times.

Join us as we scale sustainable energy solutions that move our world forward.

Team
